MOTION TO WITHDRAW

On November 20, 2003, OnStar Corporation submitted a Petition for Clarification of the Commission's Order released on October 21, 2003 in the above-captioned docket. On December 1, 2003, subsequent to the filing of the petition, the Commission released its Memorandum and Order and Second Further Notice of Proposed Rulemaking in this docket. Because the Commission addressed in that Order the matters that were the subject of the Petition for Clarification, OnStar moves to withdraw its Petition and requests the Commission to consent to such withdrawal.

On a related matter, OnStar wishes to note some continued concern that the Commission required complete compliance with the Phase II requirement by 2006, rather than a phase-in beginning in 2006. OnStar suggested a phase-in beginning in 2006, noting that at the time the petition was submitted, OnStar was planning that its OEM partners would

begin phasing-in Phase II capable units no later than 2006. However, given the ambiguity of the current situation with respect to the pace and success of development of embedded, digital telematics technology and of a Phase II solution, OnStar continues to believe it was premature to ask the Commission to further examine the issue in its petition for clarification. OnStar nonetheless reserves the right to revisit this issue if technical developments and production schedules make it apparent that further relief is needed.

Respectfully submitted,

Kenneth D. Enborg
Vice President and General Counsel
